Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of the invention of group II, claims 28-37, in the response of April 29, 2004 is acknowledged.

Claim Objections

2. Claim 33 is objected to because of the following informalities: in line 2, "and" should be deleted. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 28-32, 34 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Amos (US Patent 4,448,463).

With regards to claims 28-32 and 34, Amos discloses a method of assembling a cabinet wherein the cabinet includes a base 24, four side panels (52, 54) and four corner panels 22, the method comprising installing the corner panels on the base and sliding the side panels vertically downward into engagement with the base and the corner panels, see column 2, lines 30-38, column 3, lines 6-29 and 63-68 and column 4, lines 1-8. Applicant should note that the preamble has not been given any patentable

Art Unit: 3726

weight. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

For claim 35, see column 3, lines 6-15.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 33 is rejected under 35 U.S.C. 103(a) as being unpatentable over Amos.

Amos discloses a method of assembling a cabinet as shown above except for swingably engaging the fourth side panel with the first corner post and securing the fourth side panel to the fourth corner panel. However it would have been obvious to one of ordinary skill in the art at the time the invention was made that swingably engaging the fourth side panel with the first corner post and securing the fourth side panel to the fourth corner panel is an obvious matter of design choice wherein no stated problem is solved or unexpected results obtained in swingably engaging the fourth side panel with the first corner post and securing the fourth side panel to the fourth corner panel versus

sliding the fourth side panel vertically downward into engagement the fourth corner panel.

Allowable Subject Matter

7. Claims 36 and 37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
